

1er paso. Debe ingresar a la sucursal virtual con el usuario y clave que le fueron asignados. Después de acceder a la sucursal virtual le aparecerá una pantalla similar a la siguiente:

2do paso. Haga clic en el enlace que dice “Haga clic para acceder a la biblioteca virtual”. La siguiente figura indica dónde está ubicado el enlace:

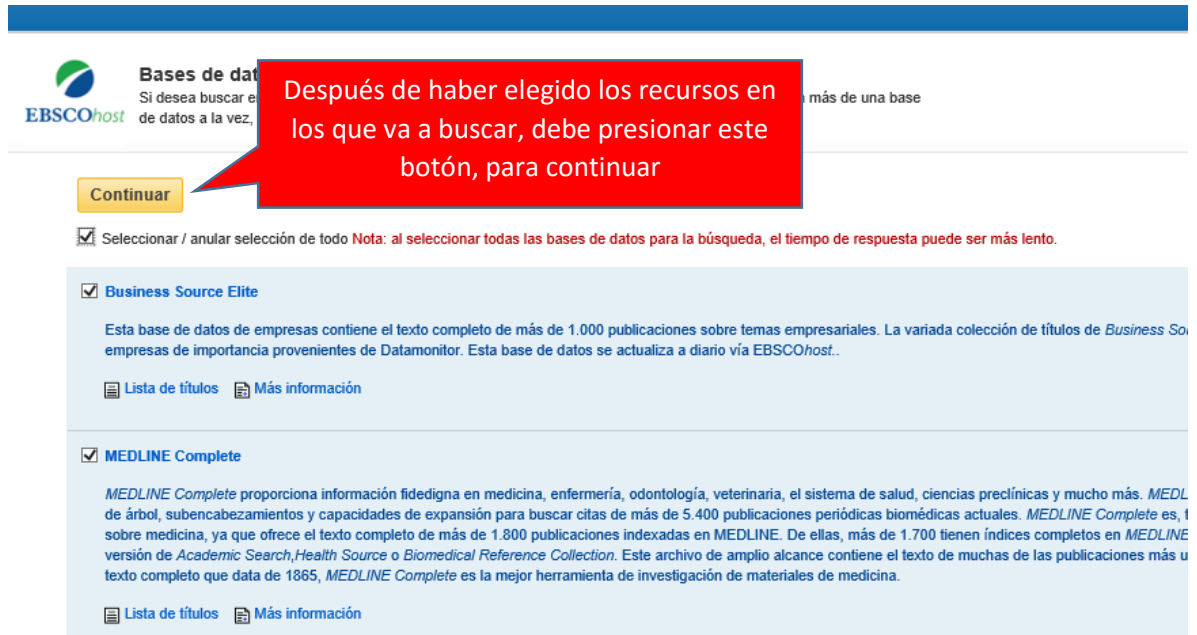

3er paso. Se le presentará la pantalla que aparece en la figura siguiente en donde debe seleccionar la base de datos que se llama “EBSCO Research Databases”.

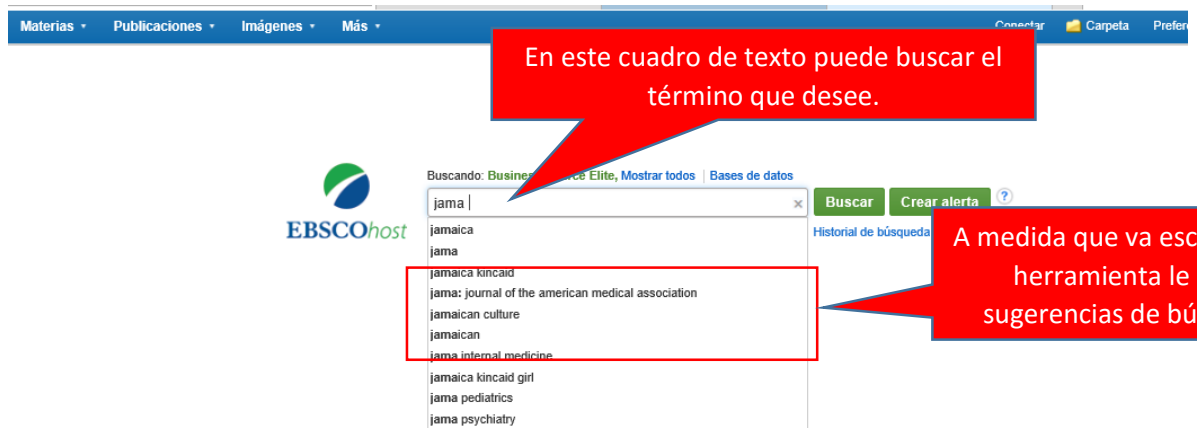

4to paso. Le aparecerá otra pantalla en donde debe seleccionar los recursos bibliográficos en donde pretende buscar. Para hacer búsquedas de todo tipo debe hacer clic en la caja de chequeo denominada “Seleccionar / anular selección de todo” y se activarán todos los recursos. Ver figura

5to paso. Después de haber seleccionado los recursos bibliográficos en el anterior paso, debe presionar el botón “Continuar”. Ver figura.

6to paso. Le aparecerá la siguiente pantalla con un cuadro de texto que permite hacer búsquedas de cualquier tipo. Simplemente debe escribir el término o términos que desea buscar. Ver figura.

7mo paso. Al terminar de escribir el término que deseo buscar (o elegirlo de las sugerencias suministradas por la herramienta), debe presionar el botón “Buscar” y le aparecerán los resultados de la búsqueda. Ejemplo: voy a buscar en la revista “JAMA Pediatrics”, para ello debo seguir los siguientes pasos que se presentan en las siguientes figuras.

The screenshot shows the EBSCOhost search interface. A search box contains the text 'jama'. A dropdown menu lists suggestions: 'jamaica', 'jama', 'jamaica kincaid', 'jama: journal of the american medical association', 'jamaican culture', 'jamaican', 'jama internal medicine', 'jamaica kincaid girl', 'jama pediatrics', and 'jama psychiatry'. The 'jama pediatrics' suggestion is highlighted in blue. A red callout bubble with the number '1' points to the search box, containing the text: 'En este cuadro de texto empiezo a escribir la palabra jama'. Another red callout bubble with the number '2' points to the 'jama pediatrics' suggestion, containing the text: 'Hago clic en la sugerencia jama pediatrics'. The EBSCOhost logo is visible on the left.

Al hacer clic sobre “jama pediatrics” no hay necesidad de hacer clic en el botón “Buscar” por cuanto la herramienta empieza inmediatamente a hacer la búsqueda. Luego le aparece la pantalla con los resultados de la búsqueda, similar la siguiente:

The screenshot shows the search results page for 'jama pediatrics'. The search box contains 'jama pediatrics'. The results list includes:

- JAMA Pediatrics Patient Page** (English) By: Moreno MA, JAMA Pediatrics [JAMA Pediatr], ISSN: 2168-6211, 2015 Nov; Vol. 169 (11), pp. 1076; Publisher: American Medical Association; PMID: 26523820, Base de datos: MEDLINE Complete. [Texto completo en PDF \(157.3KB\)](#)
- JAMA Pediatrics** (English) | JAMA Pediatrics [JAMA Pediatr], ISSN: 2168-6211, 2016 Apr 1; Vol. 170 (4), pp. 308; Publisher: American Medical Association; PMID: 27043665, Base de datos: MEDLINE Complete
- Thank You to JAMA Pediatrics Authors, Peer Reviewers, and Readers** (English) By: Rivara FP. JAMA Pediatrics [JAMA Pediatr], ISSN: 2168-6211, 2016 Mar 21; Publisher: American Medical Association; PMID: 26999030, Base de datos: MEDLINE Complete
- JAMA pediatrics patient page. Keeping children and adolescents safe from firearms** (English) By: Moreno MA, JAMA Pediatrics [JAMA Pediatr], ISSN: 2168-6211, 2015 Apr; Vol. 169 (4), pp. 412; Publisher: American Medical Association; PMID: 25844989, Base de datos: MEDLINE Complete

 A red callout bubble points to the 'Texto completo en PDF' link in the first result, containing the text: 'Haga clic aquí y le llevará al artículo en texto completo'. The left sidebar shows search filters and options.

Al hacer clic sobre el enlace que dice “Texto completo en PDF” o “Texto completo en HTML” podrá observar al artículo en archivo PDF que presenta el artículo tal cual fue impreso en la revista. Cuando elige la opción de “Texto completo en HTML” el archivo es presentado en un formato normal, el cual permite seleccionar y copiar más fácilmente algún fragmento de texto que sea de su interés. Esto no implica que en el formato PDF no lo puede hacer, pero normalmente es un poco más complejo. El artículo en PDF lo puede descargar a su equipo sin ninguna restricción. Ver figura.

Reading to Preschool Children

During the preschool years, children's brains are rapidly developing to take in new information about the world. Reading to children is a key part of this cognitive development and builds literacy skills, which include the ability to read, write, and learn.

In addition to helping children learn how to read and write, books can provide valuable lessons in social skills, such as through stories about how to interact with others. Books can provide lessons in understanding key concepts, such as opposites. Books can also provide valuable information about how the world works; examples include books about the seasons, other countries, or farm animals. Finally, children who are read to, especially before entering school, are more likely to experience stronger bonds with their parents.

Research studies of how children's brains respond to reading show positive associations between home reading and brain activation while listening to a story. Children who are read to before entering school are more likely to enjoy school and be successful there. In 2014, the American Academy of Pediatrics issued a policy statement recommending that parents read to their children beginning at birth and continuing at least through kindergarten.

Some parents may worry about whether they are reading the "right" books or in the "right" way. Parents can be reassured that the most important approach is to develop a habit of reading to your child as an enjoyable experience. The following are some tips on developing the habit of reading with your preschool child:

- Reading should be fun; you don't have to finish a story if your child loses interest.
- Let your child choose the book, even if you read the same book over and over again.
- Ask your child to help "read" a book that he or she knows well; your child may have memorized parts of it from hearing it many times.

There are many resources available to help you and your child read together. Many local libraries have story times for parents where the librarians read books to parents and their children. Reach Out and Read is an organization of medical professionals who sponsor early literacy and school readiness by providing books to parents during clinic visits and by talking about the importance of reading during medical visits.
